

**Structural Geology for Exploration and Mine Geologists
19-28 March 2023, based in Tucson, Arizona**

Jointly sponsored by Lowell Program in Economic Geology and Arizona Geological Survey,
University of Arizona

Organized by Carson A. Richardson and Eric Seedorff
Assisted by Rocío Brambila and Maximilian Britt

***Preliminary list of contributors,
with current locations and affiliations***

Organizers

Richardson, Carson A., Tucson, Arizona; Chief of Mineral Resources and Bedrock Geology
Arizona Geological Survey, University of Arizona, who works on mineral deposits, structural
geology, and regional geology

Seedorff, Eric, Tucson, Arizona; Emeritus Director, Lowell Program in Economic Geology,
Lowell Institute for Mineral Resources and Dept of Geosciences, University of Arizona, who
works on porphyry copper, molybdenum, and gold systems, regional geology, and
extensional faulting

Co-Organizers

Bardoux, Marc, Montréal, Québec, Canada; Principal Geologist for Global Project Generation,
Barrick Gold Corporation, and formerly structural geology specialist, Newmont

Hughes, Amanda N., Tucson, Arizona; Assistant Professor of Practice, Dept of Geosciences,
University of Arizona, and formerly a structural geologist with Chevron Energy Technology
Krantz, Robert W. "Bob," Durango, Colorado, and Tucson, Arizona; Adjunct Professor, Dept of
Geosciences, University of Arizona, and Affiliated Faculty of Geosciences, Fort Lewis
College; formerly Principal Structural Geologist, ConocoPhillips

Additional Contributors

Barton, Mark D., Tucson, Arizona; Professor of Economic Geology, Geochemistry, and
Petrology, Department of Geosciences and Director of Lowell Institute for Mineral
Resources, University of Arizona

Ben-Horin, Jeri Y., Tucson, Arizona; Research Scientist, Arizona Geological Survey
Ellis, Jennifer, Superior, Arizona; Principal Advisor Structural Geology and Modelling,
Resolution Copper Mining, and formerly mining specialist for structural software company
Midland Valley Exploration

Faulds, James E., Reno, Nevada; Director and State Geologist, Nevada Bureau of Mines and
Geology, an expert on structural geology and geothermal systems

Gorecki, Adam D., Tucson, Arizona; Superintendent Exploration, BHP

Griesel, Gerry, Elko, Nevada; Senior Exploration Geologist Nevada Gold Mines/Barrick, who
works on Carlin-type gold deposits, especially in the Cortez district

Pearthree, Philip A., Tucson, Arizona; Director and State Geologist, Arizona Geological Survey,
who is involved in aspects of Quaternary mapping, seismicity, geologic hazards

Rhys, David A., Surrey, British Columbia, Canada; Structural Geologist, Panterra Geoservices,
and author of recent papers on Round Mountain, the Carlin trend, and epithermal deposits

Tosdal, Richard M., Folly Beach, South Carolina; Structural Geologist, PicachoEx LLC
